PROJECT

Revolutionizing Fashion: Empowering Users to design, customize and order their perfect outfit 2024 - 2025

- Developed a web-based outfit customization platform with material and design selection features.
- Implemented body measurement scanning/input for accurate outfit sizing.
- Integrated designer chat, feedback, and return management system for better user interaction.
- Built using HTML, CSS, JavaScript, PHP, and MySQL.

Blinkit Sales Analysis Dashboard (Power BI)

- Created an interactive Microsoft Power BI dashboard for Blinkit sales analysis.
- Visualized sales, orders, ratings, and outlet performance using charts and KPI cards.
- Added filters and reports to analyze business performance and trends.

Swiggy Sales Performance Dashboard (Excel)

- Created a sales dashboard in Microsoft Excel to analyze sales and order data.
- Used charts and reports to show sales trends, ratings, and food category performance.
- Added filters to track state-wise, city-wise, and restaurant-wise performance.
